

## LIVE LEADERBOARD SCORING

*WITH GOLF SCORE CENTRAL*

# Golf Score Central Proposal

## Who Is Golf Score Central?

Golf Score Central is a tournament scoring company that offers an innovative, real-time scoring system for golf tournaments. We have been scoring tournaments for over 10 years including Telus Skins, Alberta Canadian Tour stops as well as several corporate and charity golf tournaments.

## Why Use Our System?

**FOR TOURNAMENTS:** We make scoring as simple as possible for tournament organizers. We can incorporate our live leaderboard to any existing webpage. Our scoring units are so simple to use we only need a 5 minute demonstration! Walking Scorers can update scores instantly, take pictures on each hole and contact the rule officials with ease! Best of all we offer on site support to ensure your tournament scoring runs smoothly.

## Tournament Requirements

There is a lot involved in running a tournament so we pride ourselves on being self sufficient and discrete. Prior to the tournament we evaluate coverage and scoring speed on a hole by hole basis. This is as simple as scoring a golf game with one of our units!

For the tournament we need access to the pairing sheets, a table near a power outlet to setup our units where we can meet with walking scorers to hand out units and do our 5 minute tutorial. We recommend having a scorer for every group. If you are short volunteers we can always adjust scoring by verifying golfer scorecards at designated holes.

## Additional Benefits

- Add in additional units simply by downloading the Scorekeeper app on any smartphone
- An opportunity to make money off ProAm advertising on the units and leaderboards
- Backup ability to enter score updates directly through the host to provide continuous updates to pगतour.com despite potential internet disruption at the course
- The comfort of knowing Golf Score Central has the expertise over 10 years to score a golf tournament successfully and professionally
